EDUCATION

COLLEGE

NEW ERA UNIVERSITY

2023- Present

Bachelor of Science in Information Technology

SENIOR HIGH SCHOOL

2020-2023

NEW ERA UNIVERSITY

SYSTEM DEVELOPMENT EXPERIENCE

PROXAMITY – PROXIMITY-BASED MOBILE EXAMINATION MONITORING SYSTEM

Capstone Project / Mobile Application Development

- Developed a mobile examination monitoring system for senior high school students using Flutter, Supabase, PostgreSQL, and Bluetooth Low Energy (BLE).
- Implemented examination sessions, proximity-based student monitoring, exam codes, automated submission, results, rankings, and attendance-related features.
- Integrated Supabase for user authentication, database management, examination records, student responses, and monitoring logs.
- Applied AI-assisted development and prompt engineering for debugging, code analysis, feature refinement, technical research, and documentation.
- Produced system documentation and models including system architecture, Data Flow Diagrams (DFD), Entity Relationship Diagram (ERD), use case, class, sequence, and system flow diagrams.

BANANAQUEUE – ONLINE QUEUE MANAGEMENT SYSTEM

Backend Developer / Academic Project

- Developed backend services using Node.js, Express.js, MongoDB, and Mongoose.
- Built REST API endpoints for authentication, queue management, customer entries, staff management, transactions, and administrative functions.
- Implemented secure authentication and role-based access using JSON Web Tokens (JWT) and bcrypt.
- Integrated Socket.IO for real-time queue updates, customer notifications, and queue status changes.
- Applied backend development principles in API design, database operations, authentication, and real-time communication.

OLT INVENTORY SYSTEM –CHURCH INVENTORY MANAGEMENT APPLICATION

Mobile Application Developer / Church Project

- Developed an inventory management application using Flutter, Supabase, and PostgreSQL.
- Implemented inventory creation, updating, archiving, searching, filtering, and department-based item management.
- Designed a structured item identification system for organizing and tracking individual inventory units.
- Developed inventory dashboards, activity logs, item status tracking, and department-based reports.
- Applied database design, CRUD operations, application logic, and mobile development fundamentals throughout the system.

ATTENDXIMITY – BLE-BASED MOBILE ATTENDANCE SYSTEM

Mobile Application Project

- Developed a mobile attendance system using Flutter, Supabase, PostgreSQL, and Bluetooth Low Energy (BLE).
- Implemented proximity-based attendance verification through BLE communication between mobile devices.
- Integrated authentication, attendance sessions, and database-backed attendance records.
- Applied mobile development, database management, system analysis, and BLE communication concepts in developing the application.

TECHNICAL SKILLS

PROGRAMMING & DEVELOPMENT: JAVASCRIPT, DART, PYTHON, JAVA, PHP, SQL, BASH

FRAMEWORKS & TECHNOLOGIES: FLUTTER, NODE.JS, EXPRESS.JS, REST APIS, SOCKET.IO, BLUETOOTH LOW ENERGY (BLE)

DATABASE & BACKEND: POSTGRESQL, SUPABASE, MONGODB, MONGOOSE, RELATIONAL DATABASES

AI & AI-ASSISTED DEVELOPMENT: PROMPT ENGINEERING, AI-ASSISTED CODING, CODE ANALYSIS, DEBUGGING ASSISTANCE, RAPID PROTOTYPING, MACHINE LEARNING FUNDAMENTALS

DEVELOPMENT FUNDAMENTALS: OBJECT-ORIENTED PROGRAMMING (OOP), DATA STRUCTURES AND ALGORITHMS (DSA), SYSTEMS ANALYSIS AND DESIGN (SAD), PROGRAMMING LOGIC, DATABASE DESIGN, CRUD OPERATIONS, REST API DEVELOPMENT, AUTHENTICATION & AUTHORIZATION

DEVELOPMENT TOOLS: GIT, GITHUB, VISUAL STUDIO CODE, ANDROID STUDIO

CERTIFICATIONS

COGNITIVE CLASS

- Prompt Engineering for Everyone
- Machine Learning with Python
- SQL and Relational Databases 101

ORACLE

- Oracle Cloud Infrastructure 2024 Certified AI Foundations Associate
- Oracle Cloud Infrastructure 2024 Data Certified Foundations Associate
- Oracle Cloud Infrastructure 2024 Certified Foundations Associate

ADDITIONAL

Languages: Filipino — Native | English — Proficient

Areas of Interest: AI-Assisted Software Development, Prompt Engineering, Mobile Application Development, Backend Development, Web Development, Database Management, and Software Engineering
